OBJECTIVE

Looking for a Python developer job where I can grow my skills and learn from experienced team members. I am a fast learner and very passionate about coding and technology.

WORK HISTORY

Junior Python Developer

SoftByte Solutions — Austin, TX March 2023 – Present

- Wrote Python scripts to automate some repetitive tasks.
- Fixed bugs in existing code when assigned by senior developers.
- Attended daily standups and took notes during team meetings.
- Helped update documentation when reminded to do so.
- Sometimes used pandas to look at data files.

Python Intern

LocalTech Agency — Austin, TX June 2022 – February 2023

- Learned Python basics during the internship period.
- Copied and modified existing scripts to perform similar tasks.
- Ran tests written by other developers and reported results.
- Assisted with data entry and spreadsheet management.

Barista

Coffee Planet — Austin, TX August 2019 – May 2022

- Prepared coffee and other beverages for customers.
- Handled cash register and processed payments.
- Cleaned and maintained the workspace at end of shift.

EDUCATION

Bachelor of Arts in Communications

University of Texas, Austin — Graduated: May 2019

Python for Beginners — Udemy Online Course

Completed: January 2022

SKILLS

- Python (basic)
- Microsoft Excel
- Google Docs
- Some experience with pandas
- Copy-pasting from Stack Overflow
- Git (added files and committed once or twice)
- Good communicator
- Team player

HOBBIES & INTERESTS

I like watching YouTube tutorials about Python, playing mobile games, and sometimes I try to build small projects but don't always finish them. I follow a few coding influencers on Instagram.
